Hi.

I know we just picked up lamps and dropped off a box from your facility.

This is cheaper than just having 1 drum fiber (DF140) delivered.

Will we also be completing another pick up with the delivery of the drum fiber?

The DF140 will hold 140 T12 4' lamps or 280 T8 4' lamps.

The cost of the Drum fiber is $15.00.

We also charge a 13% Trans Fuel Surcharge and
a Delivery fee if it's just supplies only.

Also may I have the wattage of the big Phillips lamps you have so I can see how many would fit
in the drum?

Thank you.
